SUMMARY

Front-end developer with two years of experience working with JavaScript, TypeScript, and HTML/CSS to build responsive and interactive web applications. Adept at contributing to a highly collaborative work environment, finding solutions, and determining customer satisfaction. Keep up to date with the latest industry trends.

EDUCATION

Sepuluh Nopember Institute of Technology | GPA: 3.37/4.00

Jul 2018 - Juni 2023

Area of Interest: Software Development, Web Development, Game Development

EXPERIENCE

Game Developer | PT Technology Marina Bahari

Jan 2024 - now

- **Communicated directly with clients** to identify problems and provide effective solutions for game and simulator features, resulting in a **15% improvement in communication efficiency**.
- **Communicated directly with clients** to identify problems and provide effective solutions for game and simulator features, resulting in a **15% improvement in communication efficiency**.
- **Optimized performance** and ensured smooth frame rates by implementing efficient coding techniques, leading to a **10% performance improvement**.
- **Integrated audio and user interface elements** into Unity, enhancing the overall user experience by **20%**.
- **Debugged and resolved technical issues and bugs**, improving development speed by **5%**.
- **Maintained and updated existing projects** to ensure compatibility with new hardware and software, resulting in a **10% performance boost**.
- **Stayed up to date with the latest industry trends and technologies** to continuously improve skills and development techniques.

Web Developer | PT Batera

Aug 2022 - Des 2023

- Developed **visually stunning web applications** by translating UI/UX design wireframes into clean, high-quality, and reusable markup using **HTML5, CSS3, JavaScript, and jQuery**.
 - Built **stable and maintainable** codebases within object-oriented JavaScript frameworks like **AngularJS**, leading to a **15% reduction in development time**.
 - Provided support to senior front-end developers after becoming proficient in **AngularJS**, contributing to a **5% increase in team efficiency**.
 - Conducted **RESTful API testing** with **Postman**, reducing **data consumption bugs by 12%**, and successfully performed **RESTful API integration using JSON**.
 - Delivered **responsive, cross-browser compatible, and accessibility-compliant** websites, achieving a **10% faster load time**.
 - Utilized **GitHub** for version control, enabling seamless team collaboration. GitHub URL: <https://dimasariza.github.io>.
 - Performed **CRUD operations** using **MySQL**, managing database access and data transmission through **RESTful web services**.
 - Developed website applications in **Linux environments**, resulting in a **10% increase in development efficiency**.
-
